From the desk of Managing Director

It gives me immense pleasure to welcome you to the 26th Annual General Meeting of your Company and to share my views with you on the performance and future outlook of the company

During the year we have been able to achieve a sales turnover of Rs.253.54 Crores which is 34.15% higher than the last year's turnover. At the same time the Company has posted a pre-tax profit of Rs. 28.37 Crores against a pre-tax profit of Rs.15.21 Crores of the previous year. This has resulted in an increase in profitability from 8.05% to 11.19%

The increase in turnover by 35.40% is the result of running of the full expanded capacity during the year and to some extent by the positive currency movement. Despite the fact that there has been an increase in raw material cost across our entire range of colours and increase in other input cost, we have been able to increase the profitability through better economies of scale. However the depreciation of the Indian Rupee against the US Dollar and Euro has resulted a further increase in costs as all our consumables are imported in Euro and most of the imported rough granite blocks in USD.

The consolidation process of the World economy is still underway. Currency movement was better during the year. We are optimistic that the scenario will continue to be positive during this year and we can achieve better results with the passing of time and with our sincere & dedicated efforts.

Availability of good quality rough granite blocks is still a critical area. Coming up of new granite processing units have made it more challenging. Procurement of Rough Blocks from Africa, Brazil, Norway, Finland and Ukraine still continuing.

For the coming year we aim to sustain the same aggressive strategy which has resulted in more than 15% increase in sales to 21 of the countries we export to. Leading the way is a 33% increase in the sales to North America, 3 times or 314% sales in Libya, which is an emerging market, a 50% increase in Germany and we have doubled the sales in Poland, Italy and Japan.

For the 3rd consecutive year we have exported to over 45 countries and are still exploring more untapped markets. However the Political and Economical instability of many regions around the world has hampered our efforts.

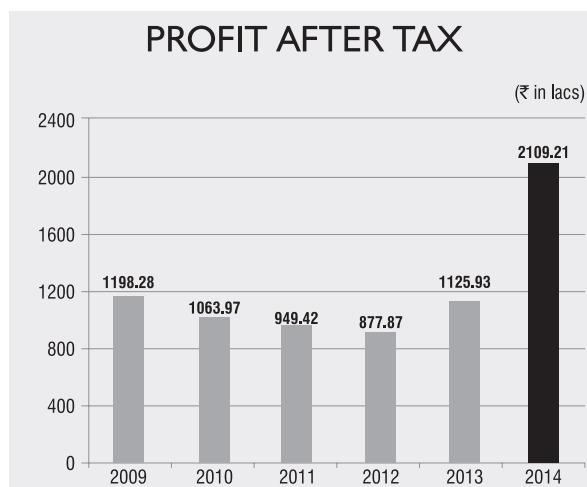

By Adapting, Excelling and Exploring new avenues we intend to take the company to greater height in the coming years and to achieve this we solicit your sincere, dedicated and continued support to make 2014-15 a truly rewarding year.

As always, I continue to seek your good wishes and support our visions and goals

Sunil K Arora

WORKING RESULTS

During the year the company has achieved a sales turnover of Rs. 253.55 Crores which is approximately 34.15% higher than the last year's turnover of Rs. 189.01 Crores. At the same time the Company has posted a pre-tax profit of Rs. 28.37 Crores against a pre-tax profit of Rs. 15.21 Crores of the previous year.

The increase in turnover is the result of running of the full expanded capacity during the year and to some extent by the positive currency movement. Despite the fact that there has been an increase in raw material cost across our entire range of colours and increase in other input cost, we have been able to increase the profitability through better economies of scale. However the depreciation of the Indian Rupee against the US Dollar and Euro has resulted a further increase in costs as all our consumables are imported in Euro and most of the imported rough granite blocks in USD.

The consolidation process of the World economy is still underway. Currency movement was better during the year. We are optimistic that the scenario will continue to be positive during this year and we can achieve better results with the passing of time and with our sincere & dedicated efforts.

Availability of good quality rough granite blocks is still a critical area. Coming up of new granite processing units have made it more challenging. Procurement of Rough Blocks from Africa, Brazil, Norway, Finland and Ukraine still continuing.

By Adapting, Excelling and Exploring new avenues we intend to take the company to greater days in the coming years and to achieve this we solicit your sincere, dedicated and continued support to make 2014-15 a truly rewarding year.

Management Discussion and Analysis

Granite Industry-Structure and Developments

India is the proud home to vast resources of granite with more than 125 varieties of different colours and textures such as black, grey, pink, multi coloured etc. These varieties are used to produce slabs, tiles, surface plates etc. for use in commercial as well as residential buildings and also used for making of monuments etc. Of these enormous deposits of granites discovered in the country, popular and famous varieties are mainly found in South India.

Export of Granite is freely allowed and is exported mainly to Japan, USA, UK, Germany, Netherlands, Italy, West Asia, Eastern Europe, and Latin America.

Outlook

India, which is blessed with unique colours and large deposits of granite, has already claimed its privileged status as the Number one Country for granites so far as colour, variety, quality and pricing are concerned. With the availability of number of new color of granites found and with the cheap and skilled labor as well as the quality coupled with, India will continue to dominate the granite world in the years to come

Opportunities & Threats for the Indian Granite Industry

The Factors helping the growth of the industry are

1. Introduction of stones for new applications and utilities.
2. Spurt in demand for Indian granites Worldwide.
3. Increased domestic demand
4. Availability of new deposits of granites with new color, texture etc.
5. Recent Stability of Foreign Currency
6. Improvement in power supply

The major threat areas include

1. Non-availability of good quality blocks for processing
2. Lack of proper infrastructure for movement of raw materials and finished goods;
3. Spiraling raw material cost coupled with the continuous increase in other input costs;
4. Paucity of skilled labour, ever increasing labour cost.

Risks and Concerns

The increase in the raw material cost along with other operating expenses blended with the stagnation of selling price of the end products will shrink the profit margin. The increase in competition at both National and International level may result in lower profitability and reduction in selling price.
