## **MEDIA RELEASE**

**Hosur, Tamil Nadu, 25.07.2017:** Aro granite industries ltd. (AGIL) is in the process of installation of one multi-wire saw machine for cutting of granite and quartzite. The installation will be completed within next three months and production will start thereafter. After the installation, the installed capacity of the granite slabs will be increased by 1,50,000 Sq. mtrs. and the installed capacity of the slab plant will be increased to 7,35,000 Sq. mtrs. from the existing 5,85,000 Sq. mtrs. taking the overall installed capacity to 10,95,000 Sq. mtrs. including tiles processing facilities. The addition of the multi wire will enable us to process quartzite (an extremely compact, hard, granular rock - which is harder than granite but more fragile) which we were not able to process before.

The company with its in-depth product knowledge, state of the art facility for processing of granite slabs and tiles and ability to source a vast variety of granite from India and abroad, is poised to take on the ever increasing demand of granite tiles and slabs in the international and domestic market.
